ROUND INFINITY

FOR MANUFACTURERS, DISTRIBUTORS AND THEIR DEALER NETWORKS

Move your dealer network to agentic.

One platform connecting manufacturers, distributors, dealers and their customers. AI agents watch stock, demand, orders and service across the network and coordinate the next step. Your teams approve what matters.

01 **Network-wide visibility**

02 **Fewer stockouts**

03 **Service at the right dealer**

Round Infinity, Inc.

From manual to agentic.

TODAY		WITH ROUND INFINITY
You see what you sell in, not what sells out	→	Dealer stock and secondary sales visible across the network
Every dealer reports in a different format	→	Data from any ERP, POS or spreadsheet, checked and mapped
Stockouts found after the sale is lost	→	Replenishment suggested before shelves run low
Customers find a dealer on their own	→	Service booked with the best dealer, on an SLA

One network, connected end to end.

Dealer Operations in five steps. An app holds the work, an AI agent does it, and people decide where it matters.

01 ONBOARD

Bring every dealer onto one network

AI AGENT

Dealer Onboarding

Sets up the dealer, collects documents and maps their SKUs.

APP Dealer Network

PEOPLE Channel managers approve new dealers.

→

02 SEE

See stock and sell-through across the network

AI AGENT

Dealer Data · Demand Sensing

Validates every report and spots demand changes by SKU and territory.

APP Inventory & Secondary Sales

PEOPLE Planners review the exceptions.

→

03 REPLENISH

Replenish before shelves run empty

AI AGENT

Replenishment

Prepares suggested orders and proposes transfers of excess stock.

APP Ordering & Replenishment

PEOPLE Dealers confirm; managers approve allocations.

→

04 SERVE

Book service with the best dealer

AI AGENT

Service Routing · Dealer Claims

Picks the best dealer by location, capacity and SLA, and books the slot.

APP Network Service & Claims

PEOPLE Dealers deliver; the manufacturer watches SLAs.

→

05 SETTLE

Settle dues, rebates and schemes

AI AGENT

Dealer Collections

Tracks dues and calculates schemes and rebates.

APP Dealer Finance & Schemes

PEOPLE Finance approves settlements.

One network, two views.

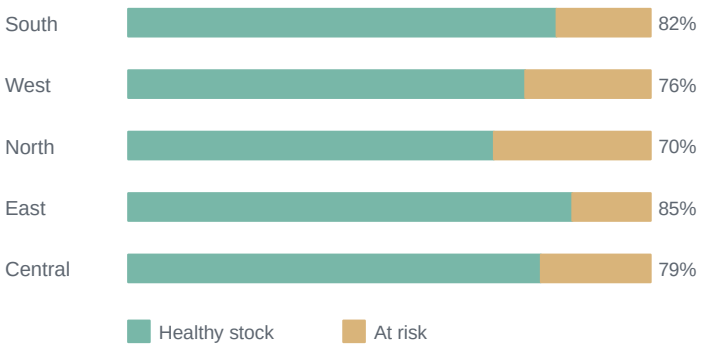

Manufacturers get a control tower for the whole network. Dealers get a simple workspace for the day's work.

MANUFACTURER CONTROL TOWER

Illustrative

6,000	5,420	23 days	312
Dealers	Reporting this week	Avg. stock cover	Stockout risks

Dealer stock health by region

RECOMMENDED BY AGENTS

- **Replenishment due**
  High-demand SKUs near minimum at 214 dealers
- **Redistribute stock**
  Excess stock found in 3 territories
- **Data exceptions**
  41 dealer reports need reconciliation

04 WAYS TO WORK

Every dealer joins, whatever they run today.

Every tier, from distributor to dealer, sub-dealer or retailer, chooses how it works with you.

CONNECTED DEALER

Keeps its systems

KEEPS

Its own ERP, POS and accounting software.

ON ROUND INFINITY

Authorized stock and sales data synced in. Network workflows, intelligence and AI agents on top.

HYBRID DEALER

Mixes both

KEEPS

Its accounting software.

ON ROUND INFINITY

Inventory, sales, orders, claims, service and day-to-day work with the manufacturer.

ROUND INFINITY-NATIVE DEALER

Runs on Round Infinity

KEEPS

Accounting, connected where needed.

ON ROUND INFINITY

Its main operating system for inventory, sales, orders and service.

Manufacturers keep their ERP too. It stays the system of record for finance and supply chain; Round Infinity runs the work across the network.

Connects to the systems your network already runs.

No rip and replace. Every source flows through one gateway and arrives clean, mapped and usable.

CONNECTS TO

- **Enterprise ERP** SAP, Oracle, Dynamics
- **Dealer ERP & POS** scheduled sync
- **Accounting software** such as Tally
- **Files** Excel, CSV, SFTP, email
- **Dealer portal & mobile** works offline
- **APIs & webhooks** anything else

→

DEALER DATA GATEWAY

01 **Capture** from every source

02 **Validate** gaps and duplicates

03 **Normalize** one format

04 **Map** dealer SKUs to yours

05 **Reconcile** late and corrected data

06 **Publish** to the shared record

07 **Trigger** workflows and agents

→

WHAT YOU CAN RELY ON

Traceable
Every figure links back to its source and time.

Reconciled
Late, duplicate and corrected reports handled.

Never lost
Errors wait in a queue and retry; nothing silently drops.

ERP-neutral
Adapters per system; no ERP logic built into the product.

Configured for what you sell.

Inventory, ordering, service and claims work the same for every product. Industry differences are configuration.

WHAT YOU SELL	CONFIGURED ATTRIBUTES	WHAT THE AGENTS USE THEM FOR
Tyres	Size, pattern, load and speed rating	Size-wise demand and fitment
Auto parts	OEM number, vehicle fitment, supersession	Compatibility checks and returns
Appliances & durables	Model, serial number, warranty period	Registration, installation and warranty
Paints & building materials	Shade, finish, pack size, batch	Regional demand and project orders
Industrial machinery	Configuration, spare parts, installed base	Spares, maintenance and service
Agri inputs	Crop, season, batch and expiry	Seasonal demand and expiry
Pharma	Batch, expiry, storage conditions	Expiry and recall tracking
FMCG	Pack, price, case size	Retailer orders and schemes

07 REPLENISH

Stock ready before demand.

The Replenishment agent combines each dealer's sell-through, stock on hand and lead time, and prepares an order the dealer confirms in one tap.

- Sell-through by SKU
- Stock on hand and in transit
- Lead time and seasonality
- Credit and scheme position
- Suggested order to confirm

POWERED BY

USE CASE — Ordering & Replenishment · Replenishment agent

+ WORKS WITH — PO to Cash

PREPARED BY AI AGENT

Illustrative

Suggested order · Dealer 2041

Prepared Monday 07:00 · North region · 3 SKUs below cover

SELL-THROUGH	3 fast-moving SKUs up 28% over 4 weeks
COVER	Stock covers 6 days; lead time is 9
CREDIT	Within limit after this order
SCHEME	Qualifies for the quarterly volume scheme

SENT TO THE DEALER ON WHATSAPP

Confirm the suggested order in one tap

Confirmed order goes to the ERP for fulfilment

Six dealer network agents. Each with a partner.

AGENT 01

Dealer Data

Checks every stock and sales report for gaps, duplicates and delays, and asks for what is missing.

+ Build Your Own

AGENT 02

Demand Sensing

Reads sell-through and seasonality to spot rising and falling demand by SKU and territory.

+ Sales Execution

AGENT 03

Replenishment

Prepares suggested orders for dealers to confirm, and proposes transfers of excess stock.

+ PO to Cash

AGENT 04

Service Routing

Finds the best dealer by location, capacity, parts and SLA, and books the slot.

+ Appointment Scheduling

AGENT 05

Dealer Claims

Checks claim documents and warranty terms, and routes each claim to the manufacturer.

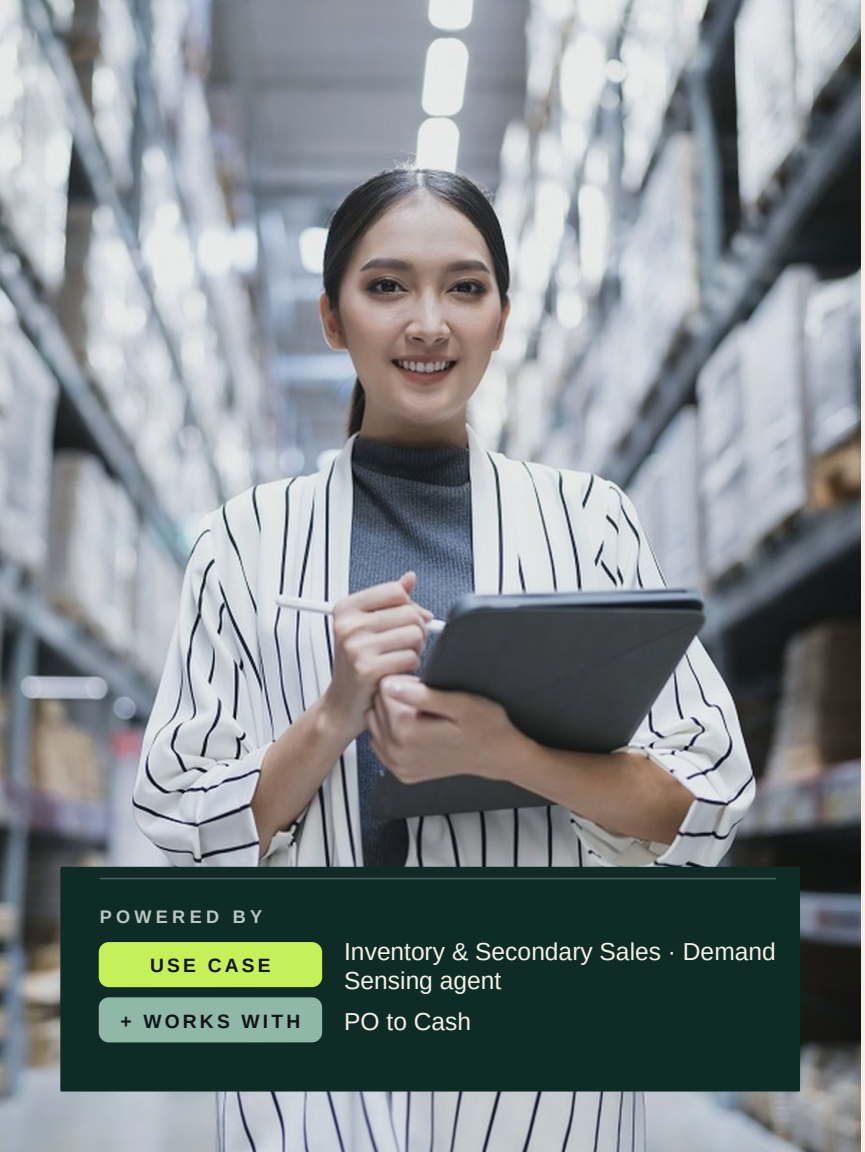

+ Service

AGENT 06

Dealer Collections

Tracks dues, credit and scheme settlements, and starts follow-ups.

+ Accounts Receivable

POWERED BY

USE CASE — Inventory & Secondary Sales · Demand Sensing agent

+ WORKS WITH — PO to Cash

09 SENSE & ACT

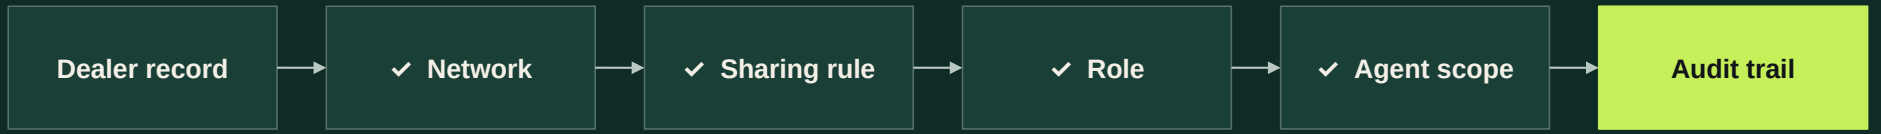

A stockout, prevented.

When demand rises in a territory, the agents see it in dealer data and act before shelves run empty.

ACTIVITY · DEMAND · WEST TERRITORY *Illustrative*

06:00	AGENT	Sell-through for one SKU up 31% across 42 dealers
06:02	AGENT	18 dealers below 7 days of cover
06:05	AGENT	Suggested orders prepared for 18 dealers
06:10	AGENT	Excess stock at 2 dealers · transfer proposed
09:20	MANAGER	Approved transfer and priority allocation
09:21	AGENT	Suggested orders sent to dealers on WhatsApp
Tue	AGENT	15 dealers confirmed · orders in the ERP

Each manufacturer sees only its own network.

Share

A dealer keeps one workspace across brands. Each manufacturer sees only the transactions the dealer has agreed to share with it.

POWERED BY

USE CASE — Dealer Network · Data sharing

+ WORKS WITH — KYC & Onboarding

Act

Agents act only within the data and actions their role allows. Orders, transfers and claims above set limits need a person's approval.

POWERED BY

USE CASE — Ordering & Replenishment · Approvals

+ WORKS WITH — PO to Cash

Six applications, built for dealer networks.

Dealer Network
Onboarding, territories, the dealer workspace

Product & Catalog
SKUs, variants, pricing, SKU mapping

Inventory & Secondary Sales
Stock, sell-through, ageing, reconciliation

Ordering & Replenishment
Orders, suggestions, approvals, returns

Network Service & Claims
Central booking, dealer routing, SLAs, claims

Dealer Finance & Schemes
Credit, payments, rebates, incentives

Works with the rest of your operation.

Connected use cases share the record and the audit trail. Industry packs add sector depth on top.

WORKS WITH

PO to Cash

Confirmed dealer orders fulfilled and invoiced.

WORKS WITH

Accounts Receivable

Dealer dues, collections and cash application.

WORKS WITH

Appointment Scheduling

Service slots across every dealer's calendar.

WORKS WITH

Field Service

Technicians dispatched for on-site service.

INDUSTRY PACKS

Manufacturing

After-sales service, warranty recovery and quality.

INDUSTRY PACKS

Automotive Retail

Parts catalogs, fitment and dealerships.

INDUSTRY PACKS

Retail & Ecommerce

Retail sell-through and promotions.

INDUSTRY PACKS

Technical Services

Installation, warranty and field service.

Tracked from request to done.

WORKFLOWS

Dealer onboarding	Documents, checks, access
Stock and sales reporting	From any system, validated
Suggested replenishment	Recommend, confirm, order
Service booking	Best dealer, slot and SLA
Dealer claim	Raise, check, route, track
Scheme settlement	Calculated and paid on time

DASHBOARDS
